Introduction

The Makah Tribal Council, in coordination with the Makah EOC, Neah Bay Public Safety, the General Manager's Office, and the Makah Tribal Health Officer, has developed a risk and capacity-based matrix for determining which Public Health Protocols to follow under a specific set of conditions. These protocols, and the matrix that governs them, have been developed utilizing the current literature about current SARS-CoV-2 epidemiology and the nonpharmaceutical interventions available to minimize disease burden and loss of life. This approach reduces the risk of COVID-19 to Makah's most vulnerable populations and preserves capacity in our health care system, while allowing people to safely engage in social activities. The plan involves assessing COVID-19 activity in the numerous regional geographical locations along with local and regional healthcare system capacity, testing capacity and availability, and the availability of a vaccine and/or effective treatment.

The protocols are public health recommendations that may be utilized directly by individuals, by businesses and employers to shape how they safely engage their workers and patrons, and by Makah Tribal Leadership to shape policy. The protocols themselves are not a regulatory document and cannot be enforced without further action by Makah Tribal Leadership.

The Makah Tribal Council has established, for the period of the emergency, a hotline so family and community members can ask questions and raise concerns about any provision of these Public Health Protocols or Health Orders. The phone number for the hotline is 360-645-6273.

Guide to Using the Matrix

These protocols are intended for all persons residing in or visiting the Makah Indian Reservation. Please read below and then review the pages that follow for more comprehension. The following descriptions and example will be more easily understood after reviewing the rest of the document.

Metric 1: Refer to the area that you are located in, or intending to travel to, so you can determine the level of Disease Activity in that area.

Metric 2: See the most recent Healthcare System Readiness Rating for Neah Bay

Matrix: Line up where the current Neah Bay Healthcare System Readiness Rating meets with the Disease Activity Level for the recommended Public Health Protocol to follow.

Ex: A Neah Bay resident wants to visit Seattle

Metric 1: Disease Activity in Seattle is currently “High”

Metric 2: Healthcare System Readiness in Neah Bay is currently: “Unstable”

Matrix: The protocol in the box for those two conditions is Phase 1 (High Risk) Protocol

Metric 1: DISEASE ACTIVITY BY GEOGRAPHIC AREA

The metric below measures the amount of disease activity in a specific area based on three criteria: (1) **Community Spread** - Confirmed or suspected COVID-19 cases who have no known contact with other infected individuals or who have not recently traveled to an area where the disease has any documented cases OR contacts . A “no” counts as low disease activity, a “yes” counts towards high disease activity; (2) **Positive case in past 14 days** A positive case includes a case, evaluated by a medical provider, with signs and symptoms consistent with COVID-19 and unable to diagnose any other condition, even if the COVID-19 test is negative. A “no” counts towards low disease activity, a “yes” counts towards high disease activity; (3) **Surveillance Testing** A “no” counts as high disease activity, e, “yes” counts as low disease activity.

-] All 3 red = High Disease Activity
- 2 red, 1 green = Moderate Disease Activity
- 1 red, 2 green = Low Disease Activity
- 3 green = Minimal Disease Activity

Geographic Area	Community Spread <i>Confirmed or suspected COVID-19 cases who have no known contact with other infected individuals or who have not recently traveled to an area where the disease has any documented cases OR contacts . A “no” counts towards low disease spread.</i>	Positive case* in past 14 days <i>*A positive case includes a case, evaluated by a medical provider, with signs and symptoms consistent with COVID-19 and unable to diagnose any other condition, even if the COVID-19 test is negative. A “no” counts towards low disease spread.</i>	Active Community Surveillance Testing <i>A “no” counts as a negative</i>	RATING June 1, 2020
Neah Bay	No	No	No	Low
Clallam County	Possible	Yes	No	High
Jefferson County	No	Yes	No	Moderate
Grays Harbor	No	Yes	No	Moderate
Whatcom County	Yes	Yes	No	High
King County	Yes	Yes	No	High
Snohomish County	Yes	Yes	No	High

Pierce County	Yes	Yes	No	High
----------------------	------------	------------	-----------	-------------

Metric 2: HEALTHCARE SYSTEM READINESS

The metric below measures the Healthcare System Readiness (HSR) for responding to a single case or an outbreak of COVID-19.

If all 5 measures are met the HSR level is “Excellent”

If 3-4 of the 5 measures are met, the HSR level is “Stable”

If 0-2 of the 5 measures are met, the HSR level is “Unstable”

	NEAH BAY (STIHC)
Regional ICU beds are available <i>ICU bed availability in Clallam County and Greater Puget Sound</i>	YES
Sufficient PPE supplies on hand <i>30 days PPE on hand according to benchmarks</i>	YES
Unrestricted PPE supplies/access <i>Based on volume limits and delays in ordering</i>	NO
Case and Contact Tracing <i>System in place with trained staff</i>	YES
Access to Reliable and Accurate Diagnostic Tools <i>>95% sensitivity of testing (minimal false negatives), All individuals with symptoms or suspected exposure are tested</i>	NO
Rating (June 1, 2020)	STABLE

Other Risk Mitigating Factors for Future Consideration

The following factors may be used for future consideration of risk, disease activity and healthcare system readiness:

Factor	Current Status
Effective Treatment <i>Treatment for persons who are sick with COVID-19 that is accessible and effective</i>	NO
Vaccine <i>Accessible vaccine with >50% of community vaccinated</i>	NO
Herd Immunity <i>> 80% of population</i>	NO
Community Compliance with Public Health Recommendations <i>Observed mask-wearing and social distancing in public spaces</i>	Unknown
Disease risk in prevalent demographic <i>% of households with persons at highest risk of disease mortality</i>	Unknown

RISK & CAPACITY BASED MATRIX FOR MAKAH PUBLIC HEALTH PROTOCOLS

Metric 1: Refer to the area that you are located in, or intending to travel to, so you can determine the level of Disease Activity in that area.

Metric 2: See the most recent Healthcare System Readiness Rating for Neah Bay

Matrix: Line up where the current Neah Bay Healthcare System Readiness Rating meets with the Disease Activity Level for the recommended Public Health Protocol to follow.

Ex: A Neah Bay resident wants to visit a location with community spread, positive cases within the past 14 days and no surveillance testing. At the same time (for the purposes of this example), Neah Bay’s healthcare system (STIHC) only has 2 of the 5 metrics ready in Healthcare System Readiness.

Metric 1: Disease Activity in that area is currently “High”

Metric 2: Healthcare System Readiness in Neah Bay is currently: “Unstable”

Matrix: The protocol in the box for those two conditions is Phase 1 Protocol

THE MATRIX

	DISEASE ACTIVITY (VARIES IN GEOGRAPHIC AREA)			
Neah Bay Healthcare System Readiness Rating (below ↓)	HIGH ↓	MODERATE ↓	LOW ↓	MINIMAL ↓
UNSTABLE →	PHASE 1 PROTOCOL	PHASE 1 PROTOCOL	PHASE 2 PROTOCOL	PHASE 2 PROTOCOL
STABLE →	PHASE 1 PROTOCOL	PHASE 2 PROTOCOL	PHASE 2 PROTOCOL	PHASE 3 PROTOCOL
EXCELLENT →	PHASE 2 PROTOCOL	PHASE 3 PROTOCOL	PHASE 3 PROTOCOL	PHASE 4 PROTOCOL

Phase 1 Protocol (High Risk)

All Persons must stay home except for Essential and Safe Activities*.

Contact with others outside of your household unit is prohibited except as necessary during Essential and Safe Activities. During Essential and Safe Activities, follow the Social Distancing Requirements*.

Individuals experiencing homelessness are exempt from this requirement but are strongly urged to obtain shelter, and should contact the Makah Family Services at 360-640-1940 or the Acting General Manager at 360-640-5707.

Individuals who live alone may join one other household unit for the duration of this phase.

All public and private gatherings are prohibited.

Strictly avoid nonessential contact with others if you are sick or have had recent contact with someone who is sick or who lives in a high-risk geographic area.

Hand Hygiene

Touch as few surfaces as possible and wash your hands or use hand sanitizer after you touch anything, do not touch your face, do not shake hands with others, and carry hand sanitizer for when you don't have access to soap and water (make sure it contains least 60% alcohol content)

Only Essential Businesses* may be open.

Non-Essential Businesses must only operate under Minimum Basic Operations*.

Non-Resident Non-Makah Tribal Members may access the Makah Indian Reservation only with Makah Tribal Council Approval. Approved Visitors must follow Visitor Protocols

Non Resident Makah Tribal Members do not need Makah Tribal Council approval. If a Non-Resident Makah Tribal Member is coming from an area of High Disease Activity they must contact the Public Safety dispatch ahead of their visit for specific instructions and must be in quarantine (remain at one household) for 14 days or the duration of their visit, whichever is shorter, prior to accessing any public spaces, even those considered essential, except for medical care. The household members will have to remain in quarantine from the date of their guests arrival. Non-Resident Makah Tribal Members who are not coming from an area of High Disease Activity do not need to quarantine but must comply with all enacted Health Orders and Public Health Protocols.

***These terms are defined in the DEFINITIONS section of this document, which begins on page 12**

Phase 2 Protocol (Moderate Risk)

What changes

Minimize all non-essential contact, which means being within 6 feet, with others outside of your household unit (essential contact = contact required for a person's health).

If you've left the Makah Indian Reservation and did not follow precautions (social distancing, wear a mask, and hand hygiene) you and your household members (even if they didn't travel with you) are asked to go into Voluntary Self-Quarantine in your home for 14 days.

Gatherings

Small gatherings are allowed outdoors while maintaining social distancing requirements*. It is strongly recommended to wear a mask while gathering. Gatherings must be small enough that all participants are known. (think about it)

All businesses, including commercial Makah Tribal fishing, with approved Workplace Safety Plans can open.

Priority Individuals (Over 60 and with underlying conditions) are strongly encouraged to continue avoiding all non-essential contact and gatherings.

Maintain preparedness for Phase 1 Protocols to begin again if disease activity increases. Transition to Phase 1 would be announced via official notification issued by the Makah Tribal Council.

What stays the same

Masks or face coverings are strongly recommended in shared public spaces.

All non-resident non-Makah tribal members must have Makah Tribal Council approval to access the Reservation. Approved visitors must follow Visitor Protocols.

Non Resident Makah Tribal Members do not need Makah Tribal Council approval. If a Non-Resident Makah Tribal Member is coming from an area of High Disease Activity they must contact the Public Safety dispatch ahead of their visit for specific instructions and must be in quarantine (remain at one household) for 14 days or the duration of their visit, whichever is shorter, prior to accessing any public spaces, even those considered essential, except for medical care. The household members will have to remain in quarantine from the date of their guests arrival. Non-Resident Makah Tribal Members who are not coming from an area of High Disease Activity do not need to quarantine but must comply with all enacted Health Orders and Public Health Protocols.

Strictly avoid nonessential contact with others if you are sick or have had recent contact with someone who is sick or who lives in a high-risk geographic area.

Hand Hygiene

Touch as few surfaces as possible and wash your hands or use hand sanitizer after you touch anything, do not touch your face, do not shake hands with others, and carry hand sanitizer for when you don't have access to soap and water (make sure it contains least 60% alcohol content)

Phase 3 Protocol (Low Risk)

What changes

Gatherings

Private and public gatherings can happen outside while maintaining social distancing OR wearing a face covering/mask.

Small private gatherings can happen indoors while wearing face coverings/masks.

Priority Individuals (Over 60 and with underlying conditions) resume public interactions, minimize nonessential contact.

What stays the same

Minimize all non-essential contact, which means being within 6 feet, with others outside of your household unit (essential contact = contact required for a person's health).

Masks or face coverings are strongly recommended in shared public spaces.

Strictly avoid nonessential contact if you are sick or have had contact with someone in a high-risk geographic area.

If you've left the Makah Indian Reservation and did not follow the recommended precautions (social distancing, wear a mask, and hand hygiene) you and your household members (even if they didn't travel with you) are asked to go into Voluntary Self-Quarantine in your home for 14 days.

Hand Hygiene

Touch as few surfaces as possible and wash your hands or use hand sanitizer after you touch anything, do not touch your face, do not shake hands with others, and carry hand sanitizer for when you don't have access to soap and water (make sure it contains least 60% alcohol content)

All businesses including commercial Makah Tribal fishing with approved Workplace Safety Plans can be open

All non-resident non-Makah tribal members must have Makah Tribal Council approval to access the Reservation. Approved visitors must follow Visitor Protocols.

Non Resident Makah Tribal Members do not need Makah Tribal Council approval. If a Non-Resident Makah Tribal Member is coming from an area of High Disease Activity they must contact the Public Safety dispatch ahead of their visit for specific instructions and must be in quarantine (remain at one household) for 14 days or the duration of their visit, whichever is shorter, prior to accessing any public spaces, even those considered essential, except for medical care. The household members will have to remain in quarantine from the date of their guests arrival. Non-Resident Makah Tribal Members who are not coming from an area of High Disease Activity do not need to quarantine but must comply with all enacted Health Orders and Public Health Protocols.

Maintain preparedness for Phase 1 Protocols to begin again if disease activity increases.

Shelter-at-home would be announced via official notification issued by the Makah Tribal Council.

Phase 4 Protocol (Minimal Risk)

What changes

All gatherings and socializing allowed.

If you've left the Makah Indian Reservation and did not follow the recommended precautions (social distancing, wear a mask, and hand hygiene) you and your household members (even if they didn't travel with you) are asked to monitor symptoms. If symptoms present, you and your household are asked to consult a medical provider to screen for COVID-19 and if necessary go into Voluntary Self-Quarantine in your home for 14 days.

Priority Individuals (Over 60 and with underlying conditions) resume public interactions, monitor health for signs or symptoms of illness.

What stays the same

Minimize all non-essential contact, which means being within 6 feet, with others outside of your household unit (essential contact = contact required for a person's health).

Masks or face coverings are strongly recommended in shared public spaces.

All non-resident non-Makah tribal members must have Makah Tribal Council approval to access the Reservation. Approved visitors must Visitor Protocols.

Non Resident Makah Tribal Members do not need Makah Tribal Council approval. If a Non-Resident Makah Tribal Member is coming from an area of High Disease Activity they must contact the Public Safety dispatch ahead of their visit for specific instructions and must be in quarantine (remain at one household) for 14 days or the duration of their visit, whichever is shorter, prior to accessing any public spaces, even those considered essential, except for medical care. The household members will have to remain in quarantine from the date of their guests arrival. Non-Resident Makah Tribal Members who are not coming from an area of High Disease Activity do not need to quarantine but must comply with all enacted Health Orders and Public Health Protocols.

Hand Hygiene

Touch as few surfaces as possible and wash your hands or use hand sanitizer after you touch anything, do not touch your face, do not shake hands with others, and carry hand sanitizer for when you don't have access to soap and water (make sure it contains least 60% alcohol content)

Safe Workplace - all businesses including commercial Makah Tribal fishing with approved Safety Plans can open.

Maintain preparedness for Phase 1 Protocols to begin again if disease activity increases.

Shelter-at-home would be announced via official notification issued by the Makah Tribal Council.

DEFINITIONS

Essential and Safe Activities

- Cultural or spiritual guidance or counseling (includes any religious or spiritual practice)
- Activities or tasks essential to a person's physical and emotional health and safety, or to the physical and emotional health and safety of their household members (including pets), or other persons or pets dependent on them in other households, such as obtaining medical supplies and/or medication, visiting a healthcare professional (including mental health and dental health professionals), or obtaining supplies they need to work from home.
- Going for a drive alone or with household unit members.
- Obtaining food or other necessary services or supplies for themselves and their family or household members, or to deliver those services or supplies to other households, such as groceries, firewood, or household cleaning products and other products necessary to maintain the safety, sanitation, and essential operation of residences; this includes food gathering and cultivation, including fishing, hunting, gathering and cultivating gardens and forest areas.
- Working for, providing or obtaining services or goods at any Essential Business or Service, including Domestic Services
- Engaging, as an individual, or with other members of the same household unit, in outdoor activity such as camping, walking, hiking, biking, running, chopping/gathering wood, gathering traditional medicinal plants or raw materials for cultural activities, or going for a drive.
- Checking mail
- Checking and maintaining a boat in which the individual has an ownership interest at the Marina, provided that Social Distancing Requirements are maintained

Priority Individuals

For the purposes of these protocols, Priority Individuals are defined in accordance with the CDC's list of those who are at a higher risk for serious illness and potential death from Covid-19. These include::

1. Individuals 60 and over
2. Individuals with the following underlying health conditions:
 - Blood disorders (e.g., sickle cell disease or on blood thinners)
 - Chronic kidney disease as defined by your doctor. Patient has been told to avoid or reduce the dose of medications because kidney disease, or is under treatment for kidney disease, including receiving dialysis

- Chronic liver disease as defined by your doctor. (e.g., cirrhosis, chronic hepatitis) Patient has been told to avoid or reduce the dose of medications because liver disease or is under treatment for liver disease.
- Compromised immune system (immunosuppression) (e.g., seeing a doctor for cancer and treatment such as chemotherapy or radiation, received an organ or bone marrow transplant, taking high doses of corticosteroids or other immunosuppressant medications, HIV or AIDS)
- Current or recent pregnancy in the last two weeks
- Endocrine disorders (e.g., diabetes mellitus)
- Metabolic disorders (such as inherited metabolic disorders and mitochondrial disorders)
- Heart disease (such as congenital heart disease, congestive heart failure and coronary artery disease)
- Lung disease including asthma or chronic obstructive pulmonary disease (chronic bronchitis or emphysema) or other chronic conditions associated with impaired lung function or that require home oxygen
- Neurological and neurologic and neurodevelopment conditions [including disorders of the brain, spinal cord, peripheral nerve, and muscle such as cerebral palsy, epilepsy (seizure disorders), stroke, intellectual disability, moderate to severe developmental delay, muscular dystrophy, or spinal cord injury].

Workplace Safety Plan Requirements and Approval Process

A Workplace Safety Plan must include the following elements

- Require social distancing for employees and patrons. Implement barriers when social distancing is not possible. Limit close interactions with patrons.
- Ensure access to hand washing facilities for employees and appropriate PPE where needed. Make educational materials readily available and accessible.
- Universal face mask/cloth when in common spaces.
- A plan and delegated staff to frequently disinfect high-touch surfaces
- A process identifying and addressing ill employees (quickly testing, staying home, tracking exposure contacts, providing clear guidance on return to work criteria), and follow CDC cleaning guidelines if potentially exposed to COVID-19 (incl. temporary business closure)
- Implement other industry-specific guidelines

Workplace Safety Plans must be submitted to the General Manager for review by the Makah Covid-19 Executive Committee. Exceptions to the above requirements may be considered on a case-by-case basis.

Social Distancing Requirements maintain at least 6 feet distance and/or utilize a physical barrier (such as a plexiglass shield) between themselves and any persons from other households, except as absolutely necessary for the provision of physical (dental or medical) healthcare services. These requirements include **No Contact Delivery/Pickup** All exchanges of items for delivery or pick up are completed with no physical contact and maintaining at least 6 feet of distance between persons.

Residence includes houses, recreational vehicles ("RVs"), mobile homes, apartments, hotels, motels, shared rental units, and similar facilities.

Household Unit is a person or group of people who occupy a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied (or if vacant, is intended for occupancy) as separate living quarters. The household unit may include, but is not limited to, a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. For the purposes of this Order, single persons living alone may elect to be combined with one other household unit for the duration that this order is in effect.

Essential Businesses and Services

- (i) Healthcare Operations – which means hospitals, clinics, dentists, pharmacies, pharmaceutical and biotechnology companies, other healthcare facilities, healthcare suppliers, home healthcare services providers, mental health providers, or any related and/or ancillary healthcare services. “Healthcare Operations” also includes veterinary care and all healthcare services provided to animals. “Healthcare Operations” does not include fitness and exercise gyms and similar facilities.
- (ii) Essential Infrastructure – which includes, but is not limited to, household and lawn maintenance, public works construction, construction of housing (in particular affordable housing or housing for individuals experiencing homelessness), airport operations, water, sewer, gas, electrical, oil refining, roads and highways, public and private transportation (including vehicle maintenance), solid waste collection and removal, internet, and telecommunications systems (including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services)
- (iii) Essential Government Functions - all services needed to ensure the continuing operation of the government agencies and provide for the health, safety and welfare of the public. All Essential Businesses are strongly encouraged to remain open and to provide special hours for vulnerable groups to access services without the presence of lower-risk individuals.
- (iv) Grocery stores, certified farmers’ markets, farm and produce stands, supermarkets, food banks, convenience stores, and other establishments engaged in the retail sale of canned food, dry goods, fresh fruits and vegetables, pet supply, fresh meats, fish, and poultry, and any other household consumer products (such as cleaning and personal care products). This includes stores that sell groceries and also sell other non-grocery products, and products necessary to maintaining the safety, sanitation, and essential operation of residences;
- (v) Businesses that provide food, shelter, and social services, and other necessities of life for economically disadvantaged or otherwise needy individuals;
- (vi) Communications and media services;
- (vii) Gas stations and auto-supply, auto-repair, and related facilities;
- (viii) Plumbers, electricians, exterminators, and other service providers who provide services that are necessary to maintaining the safety, sanitation, and essential operation of residences, Essential Activities, and Essential Businesses;
- (ix) Businesses providing mailing and shipping services, including post office boxes;
- (x) Educational institutions—including public and private K-12 schools, colleges, and universities—for purposes of facilitating distance learning or performing essential functions;
- (xi) Laundromats, dry cleaners, and laundry service providers;
- (xii) Restaurants and other facilities that prepare and serve food and beverages but only for delivery or carry out. Schools and other entities that typically provide free food services to students or members of the public may continue to do so under this Order on the condition that

the food is provided to students or members of the public on a pick -up and take- away basis only. Schools and other entities that provide food services under this exemption shall not permit the food to be eaten at the site where it is provided or at any other gathering site;

(xiii) Businesses that supply products to other Essential Businesses necessary for them to operate or needed for people to work from home;

(xiv) Businesses that ship or deliver groceries, food, goods directly to residences;

(xv) Home-based care for seniors, adults, or children;

(xvi) Residential facilities and shelters for seniors, adults, and children;

(xvii) Professional services, such as legal or accounting services, when necessary to assist in compliance with legally mandated activities.

Non-Essential Businesses or Services

All businesses or services not listed as an Essential Business.

Minimum Basic Operations

(i) The minimum necessary activities to maintain the value of the business's inventory, ensure security, process payroll and employee benefits, or for related functions.

(ii) The minimum necessary activities to facilitate employees of the business to work remotely from their residences.

Visitor Protocols

While you are here, please do not come within 6 feet of any other person who is not a part of your own household unless it is essential to the purpose of your visit to Neah Bay (e.g. some healthcare providers).

Visitors are required to wear a mask while in shared spaces with others.

Visitors are required to use hand hygiene prior to touching anything on the reservation that is not your own and that you disinfect those surfaces that you do touch during your visit here.

Visitors are not allowed to visit any enclosed public spaces or recreational sites.

This includes, but is not limited to: Washburn's General Store, Makah Mini Mart and the Post Office.
