

## Work and School Kits

In addition to your primary kit at home, make sure you're prepared at work or school.

Keep these items under your desk or near your work space:

- Water
- High-protein, high-energy food
- First-aid supplies
- Flashlight/batteries
- Radio/batteries
- Basic sanitation supplies
- Warm clothing
- Sturdy shoes or boots

### Additional Work/School Kit Items:

- Photo of family, pets or loved ones
- Note from family or loved ones
- Extra set of car keys
- Photocopy of Drivers License or ID
- Whistle
- Prescription medication
- Contact lens case/solution or spare eyeglasses

Store your items in a backpack or other small, portable container. Be sure to re-think your kit at least once a year, adding or replacing items as necessary. Protect important written documents in small plastic sealable bags.
